

Petition for Public Service Day: “No Parking” Hardship Exemption Permit

Background Information

Public Service Days occur weekly on your neighborhood’s regular trash pickup day from 8 a.m.-4 p.m.

Public Service Days are designed so that the city can deliver services to your neighborhood in a more efficient manner, including street cleaning from curb to curb.

In return, the City ordinance requires you to remove your parked vehicle(s) from the street from 8 a.m. to 4 p.m. on each Public Service Day in your neighborhood. Failure to do so could result in your vehicle(s) being towed at your expense and you receiving a citation.

However, the city understands that it may not be possible to remove your parked vehicle(s) because of a physical situation beyond your control.

Hardship Exemption Permit

If every reasonable attempt to remove your parked vehicle from the street has failed because of circumstances beyond your control, you may be in a hardship situation and should apply for a parking exemption permit.

The Dearborn Police Department will review your application and determine if you qualify for an exemption permit. If granted, the permit would allow you to continue parking on the street on Public Service Days — in front of your own home only.

If you are considering applying for an exemption permit, please be aware that...

- Permits will **not** be granted if you have as many or more off-street parking spaces than the number of licensed drivers in your home. For example, if you have room in your driveway for three vehicles and you have three licensed drivers, then you will not be granted a permit.
- If you receive an exemption permit, it must be displayed from the rearview mirror of your vehicle whenever it's parked on the street during a Public Service Day. **Your vehicle must be parked in front of your own property.**
- Exemption permits may NOT be transferred to other vehicles.
- Exemption permits are NOT valid for use during snow emergencies.
