March 20, 2012

RECEIVED
2012 MAR 26 A 9:32

The Honorable John B. O'Reilly, Jr.
Mayor, City of Dearborn
Dearborn City Hall
13615 Michigan Avenue
Dearborn, MI 48126

IN REPLY REFER TO CASE NO.: 12-05-4051A
Community: City of Dearborn, Wayne County,
Michigan
Community No.: 260220
Map Panels: 26163C0261 E; 26163C0242 E
Effective Date: February 2, 2012
218-70-RS-NS

Dear Mr. O'Reilly:

We reviewed a request dated February 2, 2012, for the Federal Emergency Management Agency (FEMA) to issue a Letter of Map Amendment (LOMA) for the structures shown within the Special Flood Hazard Area (SFHA), the area that has a 1% chance of flooding within any given year, for North Branch Ecorse Creek on the February 2, 2012, Flood Insurance Rate Map (FIRM) for Wayne County, Michigan. All required information for this request was received on February 2, 2012. Using the information submitted and the effective National Flood Insurance Program (NFIP) map, we have issued determinations for the structures, as shown on the attached determination tables (Pages 1-32). Therefore, this letter amends the FIRM for Wayne County, Michigan (FIRM No. 26163C0261E & 26163C0242E, dated February 2, 2012) to remove the structures indicated in the enclosed table (those listed as "out") from the SFHA. We will not issue individual LOMAs for each of the structures impacted; instead, we encourage the city to publicize this determination dated March 20, 2012. This determination document supersedes our previous determination, 12-05-2871A, dated February 28, 2012.

The data submitted by Mr. Godfrey A. Udoji, provided the elevations of the Lowest Adjacent Grade (LAG), the lowest ground touching the structure. For flood insurance purposes, a structure that has not been elevated by fill prior to the date of the first NFIP map showing the structure in the SFHA, is considered to be above the flood hazard if the LAG is equal to or above the Base Flood Elevation (BFE).

For the structure that received an "out" of the SFHA determination on the attached table, its LAG was at or above the BFE. Flood insurance coverage for the structures may be available under a low-cost policy (see enclosed document). Because portions of the property remain in the SFHA, any future construction or substantial improvement on the property remains subject to Federal, State, and local regulations for floodplain management

If a flood insurance policy has been issued under the National Flood Insurance Program (NFIP) covering any of the structures shown as "out" on the attached table and that policy was required by the mortgage company in conjunction with Federal flood insurance requirements, flood insurance coverage is no longer required under those Federal requirements. Accordingly, if a lender imposed the flood insurance requirement, that lender will have to determine whether or not to continue that requirement. The lender may determine, as a business decision that it wishes to continue the flood insurance requirement to protect its collateral security on the loan.

If the lender decides to release the borrower from the flood insurance requirement, and the insured decides to cancel the policy and seek a refund, the NFIP will refund the premium paid for the current policy year, providing that no claim is pending or has been paid on the policy during the current policy

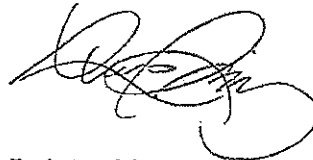

MAR 20 2012

year. The insured must obtain a written waiver of the flood insurance requirement from the lender to provide to his or her property insurance agent or company that is servicing the policy. The agent or company will then process the refund request for the insured.

Even though a structure is not located in an SFHA, it could be flooded by a flooding event of greater magnitude than a 1% annual chance flood. In fact, more than 25% of all losses in the NFIP occur to buildings located outside the SFHA, in Zones B, C or X. More than one fourth of the policies purchased under the NFIP protect buildings located in these zones. That risk is just not as great as the flood risk to buildings located in the SFHAs. To offer flood insurance protection to owners of such buildings, the NFIP offers two types of flood insurance policies: the Standard Policy and a policy for flood insurance at low rates. The low rate policy is available for buildings located outside the SFHA with little or no loss history. The Standard Policy is available for all other buildings. Individual flood risk situations and insurance needs should be discussed with an insurance agent or company before making final decision regarding flood insurance coverage.

This determination is based on the flood data presently available. If you have any questions about this document, please contact the FEMA MAP Information eXchange (FMIX) toll free at (877) 336-2627 (877-FEMA MAP) or by letter addressed to the LOMC Clearinghouse, 7390 Coca Cola Drive, Suite 204, Hanover, MD 21075.

Sincerely,

Luis Rodriguez, P.E., Chief
Engineering Management Branch
Federal Insurance and Mitigation Administration
