PLAN REVIEW REQUIREMENTS

- Plans are not required for the following:
1. One and two-family dwellings containing not more than 3,500 square feet of building area.
2. Alterations and repair work determined by the electrical official to be minor in nature.
3. Work completed by a government subdivision or state agency costing less than \$15,000.
Plans are required for all building types and shall be prepared by or under the direct supervision of an architect or engineer licensed pursuant to Act. No. 299 or Public Act of 1980, as amended, and shall bear that architect's or engineer's signature and seal.
Plans and specifications must be submitted when wiring or alteration to an electrical system is over 400 amps and is in excess of 3,500 square feet in area.

HOME OWNER AFFIDAVIT

By signing this application, homeowners are certifying that the electrical work described on this permit application shall be installed by the home owner in the home in which they are occupying or intend to occupy. All work shall be installed in accordance with the current State Electrical Code and shall not be enclosed, covered up, or put into operation until it has been inspected and approved by the electrical inspector.

Homeowners also certify that they will cooperate with the Electrical Inspector and assume the responsibility to arrange for inspections and necessary repairs.

Special Note to Homeowners: Homeowners are discouraged from obtaining permits on behalf of a contractor. The City of Dearborn addresses code issues with the permit holder. The City of Dearborn cannot resolve unlicensed/ unregistered contractors work deficiencies
