From the Desk of Council President

Dear Residents,

As we enter the fall season, the City Council remains focused on the priorities that matter most to our residents—safe neighborhoods, strong infrastructure, responsible use of City resources, and a high quality of life across Dearborn.

We continue to move important projects forward, address the needs of our neighborhoods, and listen to the concerns of the residents we serve. Thank you for staying engaged and sharing your input. We remain committed to working together to keep Dearborn moving forward.

Mike Sareini, Council President

City Council in Action

Infrastructure & Transportation

Dearborn continues to invest in the infrastructure residents rely on every day. More than \$1.4 million is planned for street, alley and sidewalk repairs through February 2027, along with \$602,035 for citywide sewer improvements. A \$3.3 million Safe Routes to School grant will also support infrastructure and other improvements around our schools, helping create safer and more accessible routes for students and families.

Public Safety & City Operations

Public safety remains one of the City's highest priorities. Dearborn continues to invest in the equipment, technology and facilities our Police, Fire and emergency response teams need to serve residents effectively. From upgrades to emergency communications and police technology to improvements at fire stations, ambulances and life-saving medical equipment, these investments help ensure our public safety departments are prepared and equipped to meet the needs of our community.

Neighborhoods & Community

Strong neighborhoods and welcoming community spaces remain an important priority. Funding has been allocated for improvements at Levagood Park and Oak Park, with projects expected to be completed in spring and summer 2027. These improvements will create more inclusive, welcoming and enjoyable spaces for children and families.

The City has also added four Code Enforcement Officers and approved \$240,000 for tree trimming in the Monday Public Service District, supporting cleaner, safer and better-maintained neighborhoods.

A look at Levagood Park's planned space-themed play space.

The Dearborn City Council and Warren Business District Improvement Authority also approved funding for a new mural at the DTE/ITC Substation at 13851 Warren Avenue. In addition, the City established a new Arts & Culture Commission to support and encourage arts and cultural initiatives throughout Dearborn.

City Ordinance & Policy Changes You Should Know About

Data Centers:

Established a temporary six-month moratorium on new data center development while the City develops permanent zoning standards and evaluates land-use, environmental, health and safety considerations. (Ord. 26-1873)

Shopping Carts:

Updated rules for abandoned and improperly removed shopping carts, including identification, recovery procedures, fees and enforcement. (Ord. 26-1863)

Parking Advisory Commission:

Updated the commission to include community stakeholders who will provide input on public parking policies, maintenance, fees and enforcement in East and West Downtown Dearborn. (Ord. 26-1865)

PEACE Park South Opens

PEACE Park South officially opened in June 2026, bringing a new recreation-focused gathering space to Dearborn's Southend. Located at 1911 Salina Street, the park was designed with sports, play and community activity at its core, featuring a basketball court, junior soccer field, two pickleball courts and additional green and gathering spaces for residents and families to enjoy.

An overhead view of the Park, showcasing its basketball and pickleball courts, a junior soccer field, and green and gathering space for residents to enjoy.

Unveiling of PEACE Park South in Dearborn's South end, on June 3, 2026.

The opening of PEACE Park South completes Dearborn's three new PEACE Parks and provides another space where residents of all ages can stay active, spend time outdoors and connect with their community.

Flooding Mitigation Efforts

In 2026, Dearborn is continuing major investments in water and sewer infrastructure, including approximately \$24 million in water main construction and \$3 million in sewer improvements.

Flood mitigation projects are also expanding stormwater capacity, improving sewer systems, installing storm sewers and backflow-prevention structures, and adding green infrastructure such as bioswales.

These investments are focused on improving the reliability of our water and sewer systems while reducing the risk of street and basement flooding during severe rain events.
